This program is distributed under the terms of the Jelurida Closed Source License v1.1 for the Ardor Full Node on Android.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE.

Please contact Jelurida at info@jelurida.com for commercial licensing options if this license does not fit your private blockchain needs.

This software also uses third party code and libraries, distributed under licenses described in 3RD-PARTY-LICENSES.txt.

Jelurida Closed Source License v1.1 for the Ardor Full Node on Android

Article 0. Definitions:

“based on [the Program/Covered Work/...]” means derived from the original Covered Work (or part thereof) by the act(s) of copying it, modifying it, including it (in whole or in part) or by linking to the original Covered Work (or part thereof).

“to convey”: To convey a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

Copyright Holder, Licensor: The owner of the IP rights over the software as determined by applicable national law and international treaty provisions regulating this subject matter.

Covered Work: The work covered by this license.

DLT Instance: Unique instance of distributed ledger consisting of a network of one or more participants (nodes) running a particular DLT Software and which nodes are in a state of consensus with each other within the permitted tolerances of the applicable con-

sensus algorithm. An example of such DLT instance is the Ardor public blockchain.

DLT Software: Any distributed ledger computer technology including but not limited to blockchain technology regardless of the way the consensus is established.

License: This Jelurida Closed Source License (JCSL)

Licensee, You: Everyone (natural person or legal entity) who wants to use, copy, distribute or build on top of the Program.

“to modify”: To modify a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a “modified version” of the earlier work or a “work based on” the earlier work. Modification also includes translation into another programming language or human language.

Program: Any copyrightable software work.

“to propagate”: To propagate a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

Article 1. Scope of the License:

1.1 This License applies to any Covered Work which contains a notice placed by the Copyright Holder saying it may be used, propagated, conveyed or modified only under the terms of this License.

1.2 All rights granted under this License are granted for the term of copyright on the Covered Work, and are irrevocable provided the conditions of this License are met.

1.3 The act of running the Covered work is not restricted as long as it does not violate Article 3.2 of this License.

1.4 Conveying is permitted solely under the conditions stated herein. Sublicensing is not allowed; Article 6 of this License makes it unnecessary.

1.5 No Covered Work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures. When you convey a Covered Work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the Covered Work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

Article 2.

2.1 You may copy and distribute verbatim copies of the Covered Work only as a whole as you receive it, in any medium, provided that you do not modify it in any way and conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Covered Work a copy of this License along with the Covered Work.

2.3 You must keep intact all authorship and copyright notices and when conveying or offering to convey copies you must also avoid any misrepresentation of the origin of the Covered Work.

Article 3.

3.1 You may not modify, decompile or reverse engineer the Covered Work in any way. Any modification, decompilation or reverse engineering even for private use only is explicitly forbidden.

3.2 The Covered work may not be used with any DLT instance other than the Ardor public blockchain platform. You may however use it from within Programs which interact with different DLT instances, but only for the purpose of interacting with the Ardor public blockchain platform.

Article 4. You may not use, copy, modify, or propagate the Covered Work except as expressly provided under this License. Any attempt otherwise to use, copy, modify or propagate the Covered Work is void, and will automatically terminate your rights under this Li-

cense. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

Article 5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to copy, use or propagate Covered Works. These actions are prohibited if you do not accept this License. Therefore, by using or propagating the Covered Work, you indicate your acceptance of this License to do so, and all its terms and conditions for, as specified in this License, copying, using or propagating the Covered Work.

Article 6. Each time you convey the Covered Work, the recipient automatically receives a license from the original Licensor to use, copy or propagate the Covered Work subject to terms and conditions of this License.

Article 7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not propagate the Covered Work at all. For example, if a patent license would not permit royalty-free redistribution of the Covered Work by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Covered Work.

Article 8. If you wish to use the Covered work under different conditions you must obtain permission or purchase a commercial license from the Copyright Holder however he is not in any way obliged to grant permission or sell such a license.

Article 9. No warranty

THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE COVERED WORK "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE COVERED WORK IS WITH YOU. SHOULD THE COVERED WORK PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

Article 10.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER OR ANY OTHER PARTY WHO MAY REDISTRIBUTE THE COVERED WORK AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE COVERED WORK (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE COVERED WORK TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. YOU INDEMNIFY THE COPYRIGHT HOLDER OR CONVEYOR OF THE COVERED WORK OF ANY LIABILITY VIS-À-VIS ANY THIRD PARTY IN CONNECTION WITH THE COVERED WORK AS USED, COPIED OR PROPAGATED BY YOU.

Article 11.

If the disclaimer of warranty and limitation of liability provided above cannot be given local legal effect according to their terms, reviewing courts shall apply local law that most closely approximates an absolute waiver of all civil liability in connection with the Covered Work, unless a warranty or assumption of liability accompanies a copy of the Covered Work in return for a fee.

Article 12. Interpretation and Governing law

12.1 You agree that you may not, for the purpose of interpretation of this License, refer to, or construe this License on the basis of, or use as counterevidence, any prior agreements, arrangements, understandings and statements, or other bilateral or public licenses, and to this extent agree (i) that this License qualifies as an agreed rule of evidence and (ii) that this clause serves as a determination agreement, and that this License shall be interpreted or construed by assuming the most obvious grammatical meaning of the wording of this License.

12.2 This License, the documents related to it and any agreement that incorporates any of these are governed by and shall be construed in accordance with the laws of Switzerland. Any and all disputes arising out of or in connection with this License, the documents related to it and any agreement that incorporates any of these shall be exclusively referred to the competent court in Lugano, Switzerland.
